EMPLOYEE SALARY VISUALISATION

```
#####
```

1. BAR CHART

```
#####
```

```
ggplot(data, aes(x = Gender, fill = Gender)) +  
  geom_bar() +  
  ggtitle("Gender Count") +  
  theme_minimal()
```

```
#####
```

2. LINE CHART

```
#####
```

```
ggplot(data, aes(x = ID, y = Salary)) +  
  geom_line(color = "blue", linewidth = 1) +  
  geom_point(color = "red", size = 2) +  
  ggtitle("Salary Line Chart") +  
  xlab("Employee ID") +  
  ylab("Salary") +  
  theme_minimal()
```

EMPLOYEE SALARY VISUALISATION

#####

3. SCATTER PLOT

#####

```
ggplot(data, aes(x = Experience_Years, y = Salary)) +  
  geom_point(color = "darkgreen", size = 3) +  
  ggtitle("Experience vs Salary") +  
  xlab("Experience") +  
  ylab("Salary") +  
  theme_minimal()
```

#####

4. HISTOGRAM

#####

```
ggplot(data, aes(x = Salary)) +
  geom_histogram(
    bins = 10,
    fill = "skyblue",
    color = "black"
  ) +
  ggtitle("Salary Histogram") +
  theme_minimal()
```

#####

5. BOXPLOT

#####

```
ggplot(data, aes(x = Gender, y = Salary, fill = Gender)) +
  geom_boxplot() +
  ggtitle("Salary Boxplot") +
```

EMPLOYEE SALARY VISUALISATION

theme_minimal()

#####

6. VIOLIN PLOT

#####

```
ggplot(data, aes(x = Gender, y = Salary, fill = Gender)) +  
  geom_violin() +  
  ggtitle("Salary Violin Plot") +  
  theme_minimal()
```

#####

7. DENSITY PLOT

```
#####
ggplot(data, aes(x = Salary)) + geom_density(fill = "orange", alpha = 0.5) +
ggtitle("Salary Density Plot") + theme_minimal()
```

```
#####
```

8. PIE CHART

```
#####
```

```
gender_table <- table(data$Gender)
```

```
